# BOXES

Our manufacturer has been in business since 1922. They are ISO 9001 and FSSC 22000 certified. They can produce folding boxes or rigid boxes designed for your specific item. They can also do digital printing and can create a plastic container for your device if you want your customer to be able to see more of your item while it is still secured in the container. They also do Litho Laminating which gives your box some character and enhances your marketing advantage. Want to lay down foil and print at the same time? We can do that! Our manufacturer has an advanced Cold Foil unit which integrates with the printing press to make the process quicker and more affordable. The simple truth is, our manufacturers Die Cutting department will save you money! They have many years of experience making their own cutting dies and storing them on-site for future use.

# DISINFECTANTS

## Cleanitimize™ Wipes

**Cleanitize™ Wipes**  
are an EPA Registered disinfectant  
designed to clean and disinfect  
hard non-porous surfaces in  
**ONE STEP**

The active ingredients are Quaternary Ammonium compounds, including Dimethyl Benzyl Ammonium Chloride and Dimethyl Ethylbenzyl Ammonium Chloride. This product will disinfect hard non-porous surfaces, when the surface has been kept visibly wet for 5 minutes.

Cleanitize Wipes are an effective disinfectant against Escherichia coli, Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus, Streptococcus pyogenes, Vancomycin resistant Enterococcus faecium (VRE), Methicillin resistant Staphylococcus aureus (MRSA), Community Associated Methicillin resistant Staphylococcus aureus (CA-MRSA), Vancomycin intermediate resistant Staphylococcus aureus (VISA), and Klebsiella pneumonia New Delhi Metallo-Beta Lactamase (NDM-1).

Cleanitize Wipes are an effective virucide on hard non-porous surfaces against Influenza A2/Japan, Herpes Simplex Virus 1, Human Immunodeficiency Virus, Type 1 (HIV-1) and Herpes Simplex Virus 2, Duck Hepatitis B Virus, Human Hepatitis B Virus, Bovine Viral Diarrhea Virus and Human Hepatitis C Virus when the treated surface is allowed to remain wet for 5 minutes. Allow to air dry.
